## CAPT. McLEAN

Capt. W. H. McLean of the big ocean steamship City of Sydney of San Francisco and Franam makes this important statement:

In December, 1904, I was in the last stages of Bright's Disease. San Francisco physicians told me there was no show for me. The dropsy was so deep that I could stick a finger in the flesh almost an inch. J. W. Burnham, President Burnham & Marsh Co., told me he knew several cases of Bright's Disease that had recovered under Fulton's Renal Compound. My old friend Donlon of Donlon & Poek told me the same thingsaid he knew of worse cases than mine that got well. This started me. The first half-dozen started the change, and I am at this writing (ten months later) as well as ever, and can pass for life insurance. I have told passengers from all over the world of my recovery. This treatment ought to be known all over the globe.
